

PROJECT PLANNING PHASE

MILESTONE & ACTIVITY LIST

DATE	18 October 2022
TEAM ID	PNT2022TMID04979
PROJECT NAME	PLASMA DONOR APPLICATION

MILESTONES	DESCRIPTION	DATE
 Literature Survey (ASSIGNED TO TEAM LEAD: M. KARTHEESWARI)	Literature Survey is the collection of facts and information from recognized authors and articles. Our literature survey focuses mainly on the growing demand of blood plasma and ways to satisfy the demand through an application that interacts with users to find a donor.	18 September 2022
 Empathy Map (ASSIGNED TO TEAM MEMBER: S.ILAKKIYA)	Empathy map is an easy to convey visual about the user's mindset regarding a particular issue. As of our case, it describes the problems and mindset of people who are in need of blood plasma during an emergency.	19 September 2022
 Brainstorming and Idea Prioritizing (ASSIGNED TO TEAM MEMBER: B.LAKSHMI PRIYA)	Brainstorming is the collection of ideas from all members in the team to arrive to a solution for solving a problem. On other hand, prioritizing those ideas helps to find the most needed and common ideas among the team members.	19 September 2022
 Proposed Solution (ASSIGNED TO TEAM LEAD: M.KARTHEESWARI)	Proposed Solution is made in response to the needs of the customer, providing a solution to the problem with uniqueness thereby satisfying the customer needs.	19 September 2022
 Problem-Solution Fit (ASSIGNED TO TEAM MEMBERS: B.LAKSHMI PRIYA D.KETHRIN MALAR)	Problem-Solution Fit actually verifies if the proposed solution matches with the customer problems considering the behavioural patterns of the customers. It helps entrepreneurs, marketers and corporate innovators to recognize what would work and why.	19 September 2022
 Solution Architecture (ASSIGNED TO TEAM MEMBERS: S.ILAKKIYA D.KETHRIN MALAR)	Solution Architecture is an intricate process with many branches that connect the space between users' problems and technology solutions.	19 September 2022
 Customer Journey (ASSIGNED TO TEAM MEMBERS: S.ILAKKIYA M.KARTHEESWARI)	Customer Journey is the interaction of the customer with the product features. Out here, our customer feels free to have direct and indirect interactions and queries regarding our application.	03 October 2022

☞ Functional Requirement (ASSIGNED TO TEAM MEMBER:D.LAKSHMI PRIYA)	Functional Requirements describe for the user, the methods to have ties with the application. i.e., account creation methods for the first login, etc. Also assures many Non- functional Requirements like security, reliability, etc.	03 October 2022
☞ Data Flow Diagrams (ASSIGNED TO TEAM LEAD:M.KARTHEESWARI)	Data Flow Diagram visualizes how data moves inside the application through pictorial representations using shapes and symbols.	03 October 2022
☞ Technology Architecture (ASSIGNED TO TEAM MEMBER: S.ILAKKIYA)	This is where all the technological requirements, including both Software and Hardware facilities are sequenced in a proper format like in the Solution Architecture.	03 October 2022
☞ Prepare Milestone and Activity List (ASSIGNED TO TEAMLEAD:M.KARTHEESWARI & TEAM MEMBER: B.LAKSHMI PRIYA)	Milestones provide a way to more accurately estimate the time it will take to complete your project by marking important dates and events, making them essential for precise project planning and scheduling.	18 October 2022
☞ Sprint Delivery Plan (ASSIGNED TO TEAMLEAD::M.KARTHEESWARI & TEAMMEMBERS:S.ILAKKIYA B.LAKSHMI PRIYA D.KETHRIN MALAR)	Sprint Delivery Plan means to split the project output to phases called sprints to deliver accordingly at scheduled time. This may be very much useful as each Sprints are carefully reviewed for perfection. This reduces flaws during submission.	18 October 2022
